Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11, 12, 14, 15, 21, and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification does not support the semi-circular slit being adapted to remain substantially closed during freezing. The specification appears to be silent with respect to whether the slits remain open or closed during heating or freezing.

3. The limitation in new claim 21 and 22 excluding vents other than slits is also considered new matter which is not support by the original specification. The original specification does not specifically exclude vents other than slits.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 11, 12, 14, 15, 21, and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huseman, U. S. Patent 6,718,738
3. Huseman teaches comprising: a front wall 14 and a back wall 16, wherein the front wall and back wall joined right and left side edges 20 and 22 and bottom edge 18 to defined a cavity in the main body of the bag. The bag also has a plurality of vents 68 formed in the main body. The front and back walls constructed of a material that will withstand freezing and heating. Huseman also teaches a zipper 34 for closing the bag.
4. Since the applicant does not disclose that semi-circular slits solves any stated problem or is for any particular purpose, it appears that using any suitable vent shape as taught by Huseman would perform equally well.

Response to Arguments

4. Applicant's arguments filed November 10, 2008 have been fully considered but they are not persuasive.
5. The Affidavit under 37 C.F.R. 1.132 does not overcome the rejection because the purpose of a 37 CFR 1.131 affidavit or declaration is to overcome a prior art rejection by proving invention of the claimed subject matter by applicant prior to the effective date of the reference or activity relied upon in the rejection.
6. The examiner suggests filing an affidavit under 37 C.F.R. 1.131.
7. Nevertheless the affidavit is not persuasive because the affidavit is drawn to limitations not supported by the original specification. The original specification does not support the semi-circular slit being adapted to remain substantially closed during freezing. The specification appears to be silent

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
